PREPARING TO PRACTICE

Insurance

Before you start to practice, you must ensure that you are legally entitled to practice in your country of residence and that you are clear on the regulations surrounding clinical practice. The next step is then for you to arrange full insurance cover.

To arrange insurance cover, please contact Balens on 01684 580 771 (or other insurer) if practicing in the UK (or an alternative insurer in your country of origin, if practicing abroad in a country where Balens does not provide cover). Your insurer will request payment together with a copy of this letter which will show the insurer that you have successfully completed the ION course.
